Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 09 January 2006.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

Claim Rejections - 35 USC § 103

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-3 are rejected under 35 U.S.C. 103(a) as being unpatentable over USP 6,554,450 (Fang et al.) in view of USP 4,914,858 (Nijssen et al.).

Fang discloses an assembly comprising a housing (1) having racks holding one shelf per rack. Upon each shelf are arrays of plant supporting containers (2) and positioned over each container (2) is a corresponding light source (12). Figure 1 shows that there is one light source (12) centered above each container (2). Each light source (12) comprises a plurality of LED's, at least one emitting white light (col.2, lines 48-50). The white light LED emits the full spectrum of light frequencies. See description of figures 1 and 2. Fang et al. doesn't show a plate (3) comprising a plurality of wells. Nijssen et al. shows a plant tissue cultivation assembly which includes a plurality of plates with a plurality of wells for growing plant tissue. It would have been obvious to one skilled in the art to substitute the containers in the Fang et al. patent with the plates (3) in Nijssen et al. in view of their known use in Nijssen et al.

Allowable Subject Matter

Claims 5-24 are considered to be allowable over the prior art of record.

As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

Response to Arguments

Applicant's arguments filed 1/9/06 have been fully considered but they are not persuasive. Applicant argues that neither Fang et al. or Nijssen et al. teach or suggest a plate defining a plurality of individual wells. The examiner disagrees. Figure 1 shows three trays (3, 3', 3'') which from the figure show that the trays are divided into a plurality of containers arranged in rows. The containers are considered to be equivalent to the claimed wells. The claimed "plate with a plurality of individual wells" is broadly interpreted to include a tray having a plurality of containers (see figure 1).

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David A. Redding whose telephone number is 571-272-1276. The examiner can normally be reached on Mon.-Fri. 6:00 - 3:00.
